28 Projects were found that meet your search criteria

Themes : Habitats-Heath and Scrublands

Viewing: 1 to 28 of 28

Sorted by : Country name ascending

PROJECT TITLE	PROJECT N°	PROJECT WEBSITE	YEAR OF FINANCE	LEAD PARTNER COUNTRY	TYPE OF BENEFICIARY
[-] Action plan for heaths, mat-grasslands and associated habitats in Belgium	LIFE96 NAT/B/003034		1996	BE	NGO-Foundation
<p>Themes: Habitats- Heath and Scrublands / Habitats- Grasslands /</p> <p>Keywords: grassland ecosystem / land purchase / management plan / protected area / restoration measure /</p> <p>Habitats: "Alluvial forests with <i>Alnus glutinosa</i> and <i>Fraxinus excelsior</i> (Alno-Padion, Alnion incanae, Salicion albae)" / "Lowland hay meadows (<i>Alopecurus pratensis</i>, <i>Sanguisorba officinalis</i>)" / "Molinia meadows on calcareous, peaty or clayey-silt-laden soils (<i>Molinia caerulea</i>)" / "Species-rich <i>Nardus</i> grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Alkaline fens / Bog woodland / Degraded raised bogs still capable of natural regeneration / Depressions on peat substrates of the Rhynchosporion / European dry heaths / Luzulo-Fagetum beech forests / Natural dystrophic lakes and ponds / Northern Atlantic wet heaths with <i>Erica tetralix</i> / Old acidophilous oak woods with <i>Quercus robur</i> on sandy plains / Oligotrophic waters containing very few minerals of sandy plains (<i>Littorelletalia uniflorae</i>) / Temperate Atlantic wet heaths with <i>Erica ciliaris</i> and <i>Erica tetralix</i> / Transition mires and quaking bogs / Water courses of plain to montane levels with the <i>Ranunculion fluitantis</i> and <i>Callitricho-Batrachion</i> vegetation /</p> <p>Species: None or non applicable /</p>					
[-] Heathlands Flanders - Intermediate Atlantic heathlands in the Flanders	LIFE99 NAT/B/006298		1999	BE	NGO-Foundation
<p>Themes: Habitats- Heath and Scrublands /</p> <p>Keywords: decision making support / land purchase / protected area / restoration measure /</p> <p>Habitats: "Alluvial forests with <i>Alnus glutinosa</i> and <i>Fraxinus excelsior</i> (Alno-Padion, Alnion incanae, Salicion albae)" / "Species-rich <i>Nardus</i> grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Depressions on peat substrates of the Rhynchosporion / European dry heaths / Northern Atlantic wet heaths with <i>Erica tetralix</i> / Old acidophilous oak woods with <i>Quercus robur</i> on sandy plains / Oligotrophic to mesotrophic standing waters with vegetation of the <i>Littorelletea uniflorae</i> and/or of the <i>Isoëto-Nanojuncetea</i> / Oligotrophic waters containing very few minerals of sandy plains (<i>Littorelletalia uniflorae</i>) /</p> <p>Species: None or non applicable /</p>					
[-] Zuiderkempen - Minerotrophic mires and heath ecosystems in the Zuiderkempen	LIFE02 NAT/B/008595		2002	BE	NGO-Foundation
<p>Themes: Habitats- Heath and Scrublands /</p> <p>Keywords: botanical conservatory / drainage system / environmental impact of agriculture / environmental impact of recreation / forest management / forestry / grassland ecosystem / informal negotiation / integrated management / land purchase / land restoration / landscape conservation policy / management contract / public awareness campaign / renaturation / restoration measure / site</p>					

rehabilitation / social participation / wetlands ecosystem /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (Alno-Padion, Alnion incanae, Salicion albae)" / "Lowland hay meadows (*Alopecurus pratensis*, *Sanguisorba officinalis*)" / "Molinia meadows on calcareous, peaty or clayey-silt-laden soils (*Molinia caerulea*)" / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Bog woodland / Calcareous fens with *Cladium mariscus* and species of the *Caricion davallianae* / Depressions on peat substrates of the *Rhynchosporion* / European dry heaths / Hard oligo-mesotrophic waters with benthic vegetation of *Chara* spp. / Natural dystrophic lakes and ponds / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains / Oligotrophic to mesotrophic standing waters with vegetation of the *Littorelletea uniflorae* and/or of the *Isoëto-Nanojuncetea* / Oligotrophic waters containing very few minerals of sandy plains (*Littorelletea uniflorae*) / Transition mires and quaking bogs /

Species: None or non applicable /

[-] Liereman - Habitat restoration in Landschap De Liereman	LIFE04 NAT/BE /000010		2004	BE	NGO-Foundation
--	------------------------------	---	------	----	----------------

Themes: Habitats- Heath and Scrublands /

Keywords: conflicting use / drainage system / environmental impact of agriculture / forest management / forestry / grassland ecosystem / informal negotiation / integrated management / land purchase / land restoration / landscape conservation policy / recreational area / restoration measure / site rehabilitation / tourist facility / wetlands ecosystem /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (Alno-Padion, Alnion incanae, Salicion albae)" / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Bog woodland / Degraded raised bogs still capable of natural regeneration / Depressions on peat substrates of the *Rhynchosporion* / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains / Oligotrophic to mesotrophic standing waters with vegetation of the *Littorelletea uniflorae* and/or of the *Isoëto-Nanojuncetea* /

Species: *Bufo calamita* / *Caprimulgus europaeus* / *Lullula arborea* / *Lurionium natans* / *Rana arvalis* /

[-] Life Grote Nete - Restoration of the lowland river system 'Grote Nete'	LIFE05 NAT/B/000090		2005	BE	NGO-Foundation
---	----------------------------	---	------	----	----------------

Themes: Habitats- Heath and Scrublands / Habitats- Grasslands /

Keywords: integrated management / landscape / protected area / public-private partnership / renaturation / restoration measure /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (Alno-Padion, Alnion incanae, Salicion albae)" / "Lowland hay meadows (*Alopecurus pratensis*, *Sanguisorba officinalis*)" / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Natural eutrophic lakes with *Magnopotamion* or *Hydrocharition* - type vegetation / Old acidophilous oak woods with *Quercus robur* on sandy plains / Transition mires and quaking bogs / Water courses of plain to montane levels with the *Ranunculion fluitantis* and *Callitriche-Batrachion* vegetation /

Species: *Alcedo atthis* / *Botaurus stellaris* / *Caprimulgus europaeus* / *Cobitis taenia* / *Dryocopus martius* / *Ixobrychus minutus* / *Lampetra planeri* / *Lullula arborea* / *Luscinia svecica* / *Nycticorax nycticorax* /

[-] Dommeldal - Transboundary habitat restoration in the valley of the Dommel	LIFE05 NAT/B/000091		2005	BE	NGO-Foundation
--	----------------------------	---	------	----	----------------

Themes: Habitats- Heath and Scrublands / Habitats- Bogs and Mires /

Keywords: border / grazing / integrated management / protected area / renaturation / river / tourist facility /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (Alno-Padion, Alnion incanae, Salicion albae)" / "Lowland hay meadows (*Alopecurus pratensis*, *Sanguisorba officinalis*)" / "Molinia meadows on calcareous, peaty or clayey-silt-laden soils (*Molinia caerulea*)" / "Oligotrophic waters containing very few minerals generally on sandy soils of the West Mediterranean, with *Isoetes* spp." / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in

Continental Europe)" / Calcareous fens with *Cladium mariscus* and species of the Caricion davallianae / Depressions on peat substrates of the Rhynchosporion / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Hard oligo-mesotrophic waters with benthic vegetation of *Chara* spp. / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Oligotrophic to mesotrophic standing waters with vegetation of the Littorelletea uniflorae and/or of the Isoëto-Nanojuncetea / Transition mires and quaking bogs / Water courses of plain to montane levels with the Ranunculion fluitantis and Callitricho-Batrachion vegetation /
Species: *Botaurus stellaris* / *Circus aeruginosus* / *Circus cyaneus* / *Circus pygargus* / *Ixobrychus minutus* / *Lampetra planeri* / *Liparis loeselii* / *Luronium natans* / *Pernis apivorus* / *Porzana porzana* / *Rhodeus sericeus amarus* / *Triturus cristatus* /

[-] Life Averbode - Habitat restoration in Averbode Bos en Heide	LIFE06 NAT/B/000081		2006	BE	NGO-Foundation
---	--------------------------------	---	------	----	----------------

Themes: Habitats- Heath and Scrublands / Habitats- Bogs and Mires /

Keywords: protected area / public-private partnership / restoration measure /

Habitats: "Oligotrophic waters containing very few minerals generally on sandy soils of the West Mediterranean, with *Isoetes* spp." / Atlantic acidophilous beech forests with *Ilex* and sometimes also *Taxus* in the shrublayer (*Quercion robori-petraeae* or *Ilici-Fag* / *Brachypodietalia* dune grasslands with annuals / Depressions on peat substrates of the Rhynchosporion / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains / Transition mires and quaking bogs /

Species: *Luronium natans* / *Triturus cristatus* /

[-] Vlaams veldgebied - Restoration of Intermediate Atlantic heathland habitats in Flanders	LIFE07 NAT/B/000024		2007	BE	NGO-Foundation
--	--------------------------------	--	------	----	----------------

Themes: Habitats- Heath and Scrublands /

Keywords: protected area / restoration measure /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (*Alno-Padion*, *Alnion incanae*, *Salicion albae*)" / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Atlantic acidophilous beech forests with *Ilex* and sometimes also *Taxus* in the shrublayer (*Quercion robori-petraeae* or *Ilici-Fag* / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains / Oligotrophic to mesotrophic standing waters with vegetation of the Littorelletea uniflorae and/or of the Isoëto-Nanojuncetea /

Species: *Caprimulgus europaeus* / *Lullula arborea* /

[-] HELA - Cross-border restoration of heathland on continental dunes	LIFE06 NAT/B/000085		2006	BE	Park-Reserve authority
--	--------------------------------	---	------	----	------------------------

Themes: Habitats- Heath and Scrublands /

Keywords: border / landscape / protected area / renaturation / restoration measure /

Habitats: Depressions on peat substrates of the Rhynchosporion / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Oligotrophic to mesotrophic standing waters with vegetation of the Littorelletea uniflorae and/or of the Isoëto-Nanojuncetea /

Species: *Caprimulgus europaeus* / *Leucorrhinia pectoralis* / *Lullula arborea* / *Luronium natans* / *Triturus cristatus* /

[-] MILITAIRE GEBIEDEN - Integrated restoration of natural habitats on military areas in Natura 2000	LIFE03 NAT/B/000024		2003	BE	Regional authority
---	--------------------------------	---	------	----	--------------------

Themes: Habitats- Grasslands / Habitats- Heath and Scrublands /

Keywords: decision making support / ecological assessment / environmental education /

environmental training / environmentally responsible behaviour / evaluation method / geographic information system / grassland ecosystem / informal negotiation / information system / integrated management / land restoration / land use planning / management plan / modelling / policy integration / public awareness campaign / restoration measure / site rehabilitation / social participation / sustainable development / wildlife sanctuary /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (Alno-Padion, Alnion incanae, Salicion albae)" / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Depressions on peat substrates of the Rhynchosporion / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains / Oligotrophic to mesotrophic standing waters with vegetation of the *Littorelletea uniflorae* and/or of the *Isoëto-Nanojuncetea* / Oligotrophic waters containing very few minerals of sandy plains (*Littorelletalia uniflorae*) / Transition mires and quaking bogs /

Species: *Leucorrhinia pectoralis* /

[-] PLTHautes-Fagnes - Rehabilitation of heaths and mires on the Hautes-Fagnes Plateau	LIFE06 NAT/B/000091		2006	BE	Regional authority
---	----------------------------	---	------	----	--------------------

Themes: Habitats- Bogs and Mires / Habitats- Heath and Scrublands /

Keywords: protected area / restoration measure /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (Alno-Padion, Alnion incanae, Salicion albae)" / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Bog woodland / Degraded raised bogs still capable of natural regeneration / Depressions on peat substrates of the Rhynchosporion / European dry heaths / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / *Juniperus communis* formations on heaths or calcareous grasslands / *Luzulo-Fagetum* beech forests / Mountain hay meadows / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains / Transition mires and quaking bogs /

Species: *Aegolius funereus* / *Asio flammeus* / *Bonasa bonasia* / *Caprimulgus europaeus* / *Ciconia nigra* / *Circus aeruginosus* / *Circus cyaneus* / *Crex crex* / *Dryocopus martius* / *Grus grus* / *Lanius collurio* / *Lycaena helle* / *Milvus migrans* / *Milvus milvus* / *Pernis apivorus* / *Picus canus* / *Pluvialis apricaria* / *Tetrao tetrix tetrix* /

[-] Life Together - To get heath restored	LIFE12 NAT/BE /001098		2012	BE	Regional authority
--	------------------------------	---	------	----	--------------------

Themes: Habitats- Heath and Scrublands /

Keywords: protected area / restoration measure /

Habitats: "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Dry sand heaths with *Calluna* and *Genista* / European dry heaths / Inland dunes with open *Corynephorus* and *Agrostis* grasslands / Northern Atlantic wet heaths with *Erica tetralix* / Old acidophilous oak woods with *Quercus robur* on sandy plains /

Species: *Coronella austriaca* /

[-] Re-establishing lichen and coastal heaths in the Anholt desert, Denmark	LIFE94 NAT/DK /000492		1994	DK	Local authority
--	------------------------------	--	------	----	-----------------

Themes: Habitats- Heath and Scrublands /

Keywords: coastal area / island / protected area / research project / restoration measure /

Habitats: Non applicable (i.e.species project) /

Species: None or non applicable /

[-] Management of North European Heathland Areas in relation to the Directive 79/409/EEC	LIFE92 NAT/DK /013600		1992	DK	National authority
---	------------------------------	--	------	----	--------------------

Themes: Habitats- Heath and Scrublands / Species- Birds /

Keywords: cost-benefit analysis / endangered species / land purchase / management plan / protected area / survey /

Habitats: Non applicable (i.e.species project) /

Species: Grus grus / Pluvialis apricaria / Tringa glareola /						
[-] Osteifel - Protection and cultivation of the Juniper heaths of the Osteifel	LIFE05 NAT/D/000055		2005	DE	Local authority	
<p>Themes: Habitats- Heath and Scrublands /</p> <p>Keywords: grassland ecosystem / nature conservation / protected area / rural area /</p> <p>Habitats: "Species-rich Nardus grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Juniperus communis formations on heaths or calcareous grasslands /</p> <p>Species: None or non applicable /</p>						
[-] Kalktuffquellen Frankenalb - Measures of optimisation of petrifying springs with tufa formation (Cratoneurion) and their sur ...	LIFE03 NAT/D/000002		2003	DE	NGO-Foundation	
<p>Themes: Habitats- Heath and Scrublands / Industry-Production- Agriculture - Fisheries /</p> <p>Keywords: agricultural pollution / aquatic ecosystem / botanical conservatory / conflicting use / diffuse pollution / drainage system / ecological assessment / environmental impact of agriculture / environmentally responsible behaviour / forest management / freshwater ecosystem / land purchase / manure / pollution prevention / public awareness campaign / renaturation / restoration measure / site rehabilitation / water quality improvement / wetlands ecosystem /</p> <p>Habitats: "Alluvial forests with Alnus glutinosa and Fraxinus excelsior (Alno-Padion, Alnion incanae, Salicion albae)" / "Tilio-Acerion forests of slopes, screes and ravines" / Alkaline fens / Petrifying springs with tufa formation (Cratoneurion) /</p> <p>Species: None or non applicable /</p>						
[-] Nossentiner - Preservation and securing of the reproduction of endangered species by protecting and managing ...	LIFE95 NAT/D/000029		1995	DE	Regional authority	
<p>Themes: Habitats- Heath and Scrublands /</p> <p>Keywords: biosphere reserve / endangered species / land purchase / land use planning / natural park / survey / tourist facility /</p> <p>Habitats: Non applicable (i.e.species project) /</p> <p>Species: Haliaeetus albicilla / Pandion haliaetus /</p>						
[-] Cuxhavener Küstenheiden - Large Herbivores for Maintenance and Conservation of Coastal Heaths	LIFE05 NAT/D/000051		2005	DE	Regional authority	
<p>Themes: Biodiversity issues- Invasive species / Habitats- Heath and Scrublands / Habitats- Grasslands /</p> <p>Keywords: coastal area / disused military site / forest management / grazing / protected area /</p> <p>Habitats: "Lowland hay meadows (Alopecurus pratensis, Sanguisorba officinalis)" / "Wooded dunes of the Atlantic, Continental and Boreal region" / Active raised bogs / Decalcified fixed dunes with Empetrum nigrum / Depressions on peat substrates of the Rhynchosporion / Dry sand heaths with Calluna and Empetrum nigrum / Dry sand heaths with Calluna and Genista / Inland dunes with open Corynephorus and Agrostis grasslands / Northern Atlantic wet heaths with Erica tetralix / Old acidophilous oak woods with Quercus robur on sandy plains / Oligotrophic to mesotrophic standing waters with vegetation of the Littorelletea uniflorae and/or of the Isoëto-Nanojuncetea / Transition mires and quaking bogs /</p> <p>Species: Leucorrhinia pectoralis /</p>						
[-] Landes et pelouses - The protective management of moors and short-grass prairies in the	LIFE98 NAT/F/005200		1998	FR	Development agency	

Mediterranean						
<p>Themes: Habitats- Heath and Scrublands / Habitats- Grasslands /</p> <p>Keywords: biodiversity / environmental training / grassland ecosystem / grazing / landscape protection / management plan / mountainous area / nature reserve / renaturation /</p> <p>Habitats: "Species-rich Nardus grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Alkaline fens / Alpine and Boreal heaths / European dry heaths / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Mountain Cytisus purgans formations / Mountain hay meadows /</p> <p>Species: None or non applicable /</p>						
[-] Haute-Vézère - Preserve the natural inheritance of the upper Vézère valley	LIFE98 NAT/F/005216		1998	FR	NGO-Foundation	
<p>Themes: Biodiversity issues- High Nature Value farmland / Habitats- Grasslands / Habitats- Heath and Scrublands / Habitats- Forests /</p> <p>Keywords: agricultural method / environmental impact of forestry / grazing / land purchase / management plan / preventive measure / protected area / restoration measure / social participation /</p> <p>Habitats: "Species-rich Nardus grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Degraded raised bogs still capable of natural regeneration / Depressions on peat substrates of the Rhynchosporion / European dry heaths / Northern Atlantic wet heaths with Erica tetralix / Oligotrophic waters containing very few minerals of sandy plains (Littorelletalia uniflorae) / Transition mires and quaking bogs /</p> <p>Species: None or non applicable /</p>						
[-] Life plateau de Montselgues - Preservation of the heathlands, peatlands and bats of Montselgues	LIFE05 NAT/F/000135		2005	FR	NGO-Foundation	
<p>Themes: Biodiversity issues- Ecological coherence / Habitats- Heath and Scrublands / Habitats- Bogs and Mires / Species- Mammals /</p> <p>Keywords: agricultural method / animal corridor / land purchase / protected area /</p> <p>Habitats: Active raised bogs / Depressions on peat substrates of the Rhynchosporion / European dry heaths / Mountain Cytisus purgans formations /</p> <p>Species: Alytes obstetricans / Barbastella barbastellus / Bufo calamita / Myotis bechsteinii / Myotis blythii / Nyctalus leisleri / Rhinolophus hipposideros /</p>						
[-] Alpe Veglia - Alpe Veglia and Alpe Devero: actions of conservation of mountain grasslands and peatlands	LIFE02 NAT/IT /008574		2002	IT	Park-Reserve authority	
<p>Themes: Habitats- Heath and Scrublands / Habitats- Bogs and Mires / Species- Invertebrates /</p> <p>Keywords: border / grassland ecosystem / mountainous area / restoration measure /</p> <p>Habitats: "Species-rich Nardus grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Alkaline fens / Alpine and Boreal heaths / Mountain hay meadows / Transition mires and quaking bogs /</p> <p>Species: Erebia christi /</p>						
[-] SPIN4LIFE - SPIN Strategy for the Implementation of Natura 2000 in Sicily	LIFE12 NAT/IT /000370		2012	IT	Regional authority	
<p>Themes: Habitats- Grasslands / Habitats- Heath and Scrublands / Habitats- Forests /</p> <p>Keywords: biodiversity / management plan / protected area /</p> <p>Habitats: Intermittently flowing Mediterranean rivers of the Paspalo-Agrostidion / Pseudo-steppe with grasses and annuals of the Thero-Brachypodietaea / Reefs / Thermo-Mediterranean and pre-desert scrub /</p> <p>Species: None or non applicable /</p>						

[-] "Healthy Heath" - Propagation and development of dry, moist and wet heath in the Dwingelderveld SPA and pSCI	LIFE08 NAT/NL /000192		2008	NL	Regional authority
<p>Themes: Habitats- Heath and Scrublands / Habitats- Bogs and Mires /</p> <p>Keywords: environmental impact of agriculture / groundwater / protected area / restoration measure / soil degradation /</p> <p>Habitats: Active raised bogs / Depressions on peat substrates of the Rhynchosporion / European dry heaths / Northern Atlantic wet heaths with Erica tetralix /</p>					
[-] Dorset heaths - Combatting urban pressures degrading European heathlands in Dorset	LIFE00 NAT/UK /007079		2000	UK	Local authority
<p>Themes: Habitats- Heath and Scrublands / Information-Communication- Environmental training - Capacity building /</p> <p>Keywords: conflicting use / ecological assessment / environmental education / environmental impact of recreation / land use planning / landscape conservation policy / recreational area / sensitive area /</p> <p>Habitats: Depressions on peat substrates of the Rhynchosporion / European dry heaths / Northern Atlantic wet heaths with Erica tetralix /</p> <p>Species: None or non applicable /</p>					
[-] Erica/UK/France - Conservation and re-establishment of Southern Atlantic wet heaths with Erica ciliaris and Erica ...	LIFE95 NAT/UK /000832		1995	UK	NGO-Foundation
<p>Themes: Biodiversity issues- High Nature Value farmland / Habitats- Coastal / Habitats- Heath and Scrublands /</p> <p>Keywords: agricultural method / coastal area / land purchase / management plan / protected area / restoration measure /</p> <p>Habitats: Non applicable (i.e.species project) /</p> <p>Species: None or non applicable /</p>					
[-] The management and protection of the Breckland	LIFE92 NAT/UK /013200		1992	UK	NGO-Foundation
<p>Themes: Habitats- Heath and Scrublands /</p> <p>Keywords: agricultural method / grassland ecosystem / management plan / monitoring system / protected area / restoration measure / site rehabilitation /</p> <p>Habitats: Non applicable (i.e.species project) /</p> <p>Species: Burhinus oedicnemus / Caprimulgus europaeus / Lullula arborea /</p>					
[-] Protection and management of lowland heathland in Dorset	LIFE92 NAT/UK /013300		1992	UK	NGO-Foundation
<p>Themes: Biodiversity issues- Ecological coherence / Habitats- Heath and Scrublands /</p> <p>Keywords: cost-benefit analysis / decision making support / environmental training / land purchase / protected area / renaturation /</p> <p>Habitats: Non applicable (i.e.species project) /</p> <p>Species: Caprimulgus europaeus / Lullula arborea / Sylvia undata /</p>
