12 Projects were found that meet your search criteria

Free text : moor

Viewing: 1 to 12 of 12

Sorted by : Country name ascending

PROJECT TITLE	PROJECT N°	PROJECT WEBSITE	YEAR OF FINANCE	LEAD PARTNER COUNTRY	TYPE OF BENEFICIARY
[-] Hohes Moor Niedersachsen - "Hohes Moor" peat bog	LIFE00 NAT/D/007043		2000	DE	Regional authority
<p>Themes: Habitats- Bogs and Mires /</p> <p>Keywords: agricultural pollution / diffuse pollution / drainage system / environmental impact of agriculture / eutrophication / flood protection / informal negotiation / land purchase / landscape conservation policy / local authority / migratory species / pollution prevention / renaturation / restoration measure / site rehabilitation / water quality improvement / water resources management / wetlands ecosystem / wildlife sanctuary /</p> <p>Habitats: Bog woodland / Degraded raised bogs still capable of natural regeneration / Natural dystrophic lakes and ponds /</p> <p>Species: None or non applicable /</p>					
[-] Cornwall Moors - Restoration of the mid Cornwall Moors for the Euphydryas aurinia	LIFE03 NAT/UK /000042		2003	UK	National authority
<p>Themes: Species- Invertebrates / Species- Mammals /</p> <p>Keywords: animal corridor / conflicting use / ecological assessment / environmental impact of agriculture / environmental impact of transport / environmentally responsible behaviour / grassland ecosystem / grazing / informal negotiation / information network / integrated management / land purchase / management contract / management plan / modelling / monitoring / population dynamics / public-private partnership / restoration measure / risk management / social participation / wildlife sanctuary /</p> <p>Habitats: European dry heaths / Northern Atlantic wet heaths with Erica tetralix /</p> <p>Species: Euphydryas aurinia /</p>					
[-] Cx SCAILLE - Actions for the valleys and turf moors of Croix Scaille (Belgium)	LIFE05 NAT/B/000087		2005	BE	NGO-Foundation

Themes: Habitats- Bogs and Mires /

Keywords: border / endangered species / land purchase / landscape protection / protected area / restoration measure /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (*Alno-Padion*, *Alnion incanae*, *Salicion albae*)" / "Lowland hay meadows (*Alopecurus pratensis*, *Sanguisorba officinalis*)" / "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / "Tilio-Acerion forests of slopes, screes and ravines" / *Asperulo-Fagetum* beech forests / Bog woodland / Degraded raised bogs still capable of natural regeneration / European dry heaths / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / *Luzulo-Fagetum* beech forests / Northern Atlantic wet heaths with *Erica tetralix* / Sub-Atlantic and

medio-European oak or oak-hornbeam forests of the Carpinion betuli / Water courses of plain to montane levels with the Ranunculion fluitantis and Callitricho-Batrachion vegetation /
Species: Alcedo atthis / Caprimulgus europaeus / Ciconia nigra / Cottus gobio / Lampetra planeri / Lanius collurio / Lutra lutra / Tetrao tetrix tetrix /

[-] MoorLIFE - MoorLIFE: Active blanket bog restoration in the South Pennine Moors	LIFE08 NAT/UK /000202		2008	UK	NGO-Foundation
---	------------------------------	---	------	----	----------------

Themes: Habitats- Bogs and Mires /
Keywords: protected area / restoration measure / soil erosion /
Habitats: Blanket bogs (* if active bog) /

[-] Hannoversche Moorgeest - Re-wetting valuable raised bogs in the northern Hannover Region	LIFE11 NAT/DE /000344		2011	DE	Regional authority
---	------------------------------	--	------	----	--------------------

Themes: Habitats- Bogs and Mires /
Keywords: restoration measure / wetland /
Habitats: "Lowland hay meadows (Alopecurus pratensis, Sanguisorba officinalis)" / Active raised bogs / Bog woodland / Degraded raised bogs still capable of natural regeneration / Depressions on peat substrates of the Rhynchosporion / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Natural dystrophic lakes and ponds / Old acidophilous oak woods with Quercus robur on sandy plains /
Species: Leucorrhinia pectoralis /

[-] LIFE-Projekt Egge-Moore - Schutz und Entwicklung der Moor-Lebensräume im südlichen Eggegebirge	LIFE12 NAT/DE /000136		2012	DE	Park-Reserve authority
---	------------------------------	---	------	----	------------------------

Themes: Habitats- Bogs and Mires /
Keywords: mountainous area / restoration measure / wetland /
Habitats: "Alluvial forests with Alnus glutinosa and Fraxinus excelsior (Alno-Padion, Alnion incanae, Salicion albae)" / Bog woodland / Degraded raised bogs still capable of natural regeneration / Transition mires and quaking bogs / Water courses of plain to montane levels with the Ranunculion fluitantis and Callitricho-Batrachion vegetation /
Species: None or non applicable /

[-] South Pennine Moors - South Pennine Moors - An Integrated Management Strategy and Conservation Action Programme	LIFE95 NAT/UK /000824		1995	UK	Park-Reserve authority
--	------------------------------	--	------	----	------------------------

Themes: Species- Birds /
Keywords: environmental impact of agriculture / environmental impact of recreation / integrated management / management plan / protected area / quarry /
Habitats: Specific (i.e.for technical reasons or specific issue) /
Species: Anser albifrons flavirostris / Falco columbarius / Falco peregrinus / Pluvialis apricaria /

[-] Hörfeld-Moor - Hörfeld-Moor (Kärnten-Steiermark)	LIFE97 NAT/A/004207		1997	AT	NGO-Foundation
---	----------------------------	--	------	----	----------------

Themes: Habitats- Bogs and Mires /
Keywords: biodiversity / ecotourism / financial instrument / integrated management / land purchase / mountainous area / nature reserve / wetland /
Habitats: "Alluvial forests with Alnus glutinosa and Fraxinus excelsior (Alno-Padion, Alnion incanae, Salicion albae)" / "Molinia meadows on calcareous, peaty or clayey-silt-laden soils (Molinion

caeruleae)" / Active raised bogs / Alkaline fens / Bog woodland / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Transition mires and quaking bogs /

Species: None or non applicable /

[-] Moore und Heiden - Improvement of the SPA Moore und Heiden des west. Münsterlandes (moorland and heaths of the wes ...	LIFE98 NAT/D/005100		1998	DE	NGO-Foundation
---	--------------------------------	---	------	----	----------------

Themes: Habitats- Bogs and Mires /

Keywords: biotope network / land purchase / protected area / renaturation / survey / wetland /

Habitats: Active raised bogs / Bog woodland / Degraded raised bogs still capable of natural regeneration / Northern Atlantic wet heaths with *Erica tetralix* /

Species: None or non applicable /

[-] landes et pelouses - The protective management of moors and short-grass prairies in the Mediterranean	LIFE98 NAT/F/005200		1998	FR	Development agency
--	--------------------------------	--	------	----	--------------------

Themes: Habitats- Heath and Scrublands / Habitats- Grasslands /

Keywords: biodiversity / environmental training / grassland ecosystem / grazing / landscape protection / management plan / mountainous area / nature reserve / renaturation /

Habitats: "Species-rich *Nardus* grasslands, on silicious substrates in mountain areas (and submountain areas in Continental Europe)" / Active raised bogs / Alkaline fens / Alpine and Boreal heaths / European dry heaths / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Mountain *Cytisus purgans* formations / Mountain hay meadows /

Species: None or non applicable /

[-] Wengermoor-Projekt - The Wengermoor Project	LIFE99 NAT/A/005916		1999	AT	Regional authority
--	--------------------------------	---	------	----	--------------------

Themes: Habitats- Bogs and Mires /

Keywords: cartography / conflict of interests / drainage system / land purchase / management plan / protected area / wetland /

Habitats: "Alluvial forests with *Alnus glutinosa* and *Fraxinus excelsior* (*Alno-Padion*, *Alnion incanae*, *Salicion albae*)" / "Lowland hay meadows (*Alopecurus pratensis*, *Sanguisorba officinalis*)" / "Molinia meadows on calcareous, peaty or clayey-silt-laden soils (*Molinion caeruleae*)" / Active raised bogs / Bog woodland / Degraded raised bogs still capable of natural regeneration / Depressions on peat substrates of the *Rhynchosporion* / Transition mires and quaking bogs /

Species: None or non applicable /

[-] Rambower Moores - Regeneration of the "Rambower Moor" for protecting bittern (<i>Botaurus stellaris</i>)	LIFE99 NAT/D/005936		1999	DE	Park-Reserve authority
---	--------------------------------	---	------	----	------------------------

Themes: Habitats- Bogs and Mires /

Keywords: agricultural method / biosphere reserve / cultural heritage / endangered species / environmental impact of agriculture / land purchase / management plan / public awareness campaign / restoration measure / sensitive area / survey / tourist facility /

Habitats: "Lowland hay meadows (*Alopecurus pratensis*, *Sanguisorba officinalis*)" / "Molinia meadows on calcareous, peaty or clayey-silt-laden soils (*Molinion caeruleae*)" / Alkaline fens / Bog woodland / Calcareous fens with *Cladium mariscus* and species of the *Caricion davallianae* / Hydrophilous tall herb fringe communities of plains and of the montane to alpine levels / Natural dystrophic lakes and ponds / Natural eutrophic lakes with *Magnopotamion* or *Hydrocharition* - type vegetation / Transition mires and quaking bogs / Water courses of plain to montane levels with the *Ranunculion fluitantis* and *Callitricho-Batrachion* vegetation /

Species: *Botaurus stellaris* /
